5. We Conducted **Awareness on vaccination dose-1** on **09-01-2021** at **Thallapallyguda**. The hesitation towards vaccination with the COVID 19 vaccine remains a problem worldwide. Lack of clinical trials for the vaccine, fear of vaccine side effects, and rumors of the presence of active viruses in vaccines are some leading obstacles that obstruct the success of the COVID 19 vaccine campaign. Vaccine hesitancy is a major obstacle in the face of the COVID 19 vaccination programs.
6. We conducted **Swatch Bharath** at **Thallapallyguda** on **22-02-2021**. The programme includes elimination of open defecation, conversion of unsanitary toilets to pour flush toilets, eradication of manual scavenging, municipal solid waste management and bringing about a behavioural change in people regarding healthy sanitation practices.
7. The Arogya Setu app helps the Govt. of India identify hotspots, hence aiding in curbing the spread of the infection. The more number of people use it, the more effective the app will be in chaining the pandemic. So, We Conducted **Awareness Programme on Arogya Sethu and COVID-19 portal usage** on **27-09-2021** at **Thallapallyguda**.
  - If you make a first or a second degree contact with a COVID-19 positive person, Arogya Setu alerts you and gets you timely medical help. The self-assessment test also helps you in identifying possibilities of infection.
  - By early identification and prevention of potential risk of infection in you and others, Arogya Setu enables better safety for those around you, acting as a shield of protection for all your loved ones.
