Yoga brings together physical and mental disciplines to achieve a peaceful body and mind. It improves respiration, energy and vitality.

The true essence of yoga revolves around elevating the life force or kundalini at the base of the spine. It aims to achieve this through a series of physical and mental exercises at the physical level. The methods comprise various yoga postures or asanas that aim to keep the body healthy.

The trainer explored the mental techniques like breathing exercises, pranayama and meditation to discipline the mind.

Yoga brings together physical and mental disciplines to achieve a peaceful body and mind. It improves respiration, energy and vitality.

The true essence of yoga revolves around elevating the life force or kundalini at the base of the spine. It aims to achieve this through a series of physical and mental exercises at the physical level. The methods comprise various yoga postures or asanas that aim to keep the body healthy.

The trainer explored the mental techniques like breathing exercises, pranayama and meditation to discipline the mind.

Yoga brings together physical and mental disciplines to achieve a peaceful body and mind. It improves respiration, energy and vitality.

The true essence of yoga revolves around elevating the life force or kundalini at the base of the spine. It aims to achieve this through a series of physical and mental exercises at the physical level. The methods comprise various yoga postures or asanas that aim to keep the body healthy.

The trainer explored the mental techniques like breathing exercises, pranayama and meditation to discipline the mind.
